You're in the moment now
A bitter root
A wandering eye and then
The ties that bind start wearing thin, thin

You're in the moment now
When all you've been blessed with
Is not enough
Here's where the ground gets loose
Here's where the devils call your bluff

Stay strong
You are not lost
Come on and fix your eyes ahead
There's a new dawn to light our day, our day
You've gotta stay strong
You and I run
For the prize that lies ahead
We've come too far to lose our way, our way

We've seen the tragic flaws
The tortured souls
The saints with feet of clay
Here's where sin becomes cliché

We've come through wilderness and watched
The cloud by day
The burning sky into dawn
Have you forgotten who you are?
Did you forget whose trip you're on?
Stay strong
You are not lost
Come on and fix your eyes ahead
There's a new dawn to light our day, our day
We've gotta stay strong
You and I run
For the prize that lies ahead
We've come too far to lose our way, our way

Get up, there's further to go
Get up, there's more to be done
Get up, this witness is sure

Get up, this race can be won
This race can be won

We've gotta stay strong
You are not lost
Come on and fix your eyes ahead
Our Father's dawn will light our day, our day
Come on and stay strong
His grip is sure
And His patience still endures
There'll be no letting go today, no way

Come on, and stay strong
You and I run
For the prize that lies ahead
We've come too far to lose our way, our way
