Raise the mast on the steadfast!
Swept to their bareback seahorse
Say they gonna try the sea course
Who could survive such a dangerous mission
Alongside pirates with zero ambition

We got the coconuts poured
We drop the hooks overboard
And if you get a little seasick
We play the Haddock for a Hat trick

We got the hammocks on the main deck
Swingin' low
We got the butler doin' the hen-peck
Screamin' so
He say we shoulda been swabbin' the poop deck
We dunno
It's what the other pirates do do
But we're bringin' you

Yo ho heroes
Standin' in the gap
Where'd you put the toys
Time to take a nap

Yo Ho heroes
Flighty as a bird
Easy is the word
Yo, I'm seein' no heroes

We're on a limbo craze
It's a relic from our limber days
Now we're stuck inside the Limbo-Zone
Its where the pirates go with too much time and a
missing spine

Yo ho heroes
Standing in the gap
Where'd you put the map
Take another nap

Yo ho heroes

Strike a better pose
That's the way it goes
Yo, I'm seein' no heroes

We're on the Bad Mood Swing
We haven't done one thing
Not even a minimum daily requirement
We got the funk without the Parliament

And if you're feelin' a little seasick
rizeandshine
And if you wanna get off the guilt trip
Now's the time
Because the Captain of the Main Ship
Rings the chime
He could be comin' before you know Him
What are you gonna show Him

Go hero
Standing in the gap
Takin' up the slack
Followin' the King's Map

Go hero
Steady as a rock
I know it's a shock
Yo, there be a hero

Go hero
Standin' in the gap
Takin' up the slack
Followin' the King's Map

Go hero
Steady at the wheel
Keep an even keel
Yo, there be the King's hero
