The morning paper is reading like a scroll

Like the headlines from 2000 years ago

Everywhere i look i see the signs

My hearts telling me it's almost time

Chorus

Don't it make you want to go home

Run through those gates and fall in Jesus' arms

And all the cares of this world will be gone

Don't it make ya...don't it make you wanna go home

I can't wait to sit at Jesus feet

To hear him say welcome home to me

I can almost feel his warm embrace

And His nail scarred hands as they wipe my tears

away!

Chorus

Don't it make you want to go home

Run through those gates and fall in Jesus' arms

And all the cares of this world will be gone

Don't it make ya...don't it make you wanna go home

Far away from this world of pain

God's prepared a perfect place

And i can't stop thinking about it

Im so homesick for it

Don't it make you want...don't it make you wanna go

home

Chorus

Don't it make you want to go home

Run through those gates and fall in Jesus' arms

And all the cares of this world will be gone

Don't it make ya...don't it make you wanna go home

Don't it make you want to go home

Run through those gates and straight to heavens

throne

And fall in Jesus' arms

Don't it make ya...don't it make you wanna go home

Yea, yes i wanna go home

Yea, yes i wanna go home

Yea, yes i wanna go home
