You loved me cuz I loved you  
Not because that I'm the best

You're with me cuz I wanted to  
Not because that you wanted to

You kissed me cuz I looked so pity  
Not because that you missed me

You loved me,you're with me,and you kissed me,  
But not becauseâ€¦

For me you were the very one  
For you I was one of all  
Are there any ways to make you turn to me?

â€¦»Let's talk about love.about everything you need  
Everything that's something to do with our love  
Talk about love,about everything we need  
Everything that's something to do with our loveâ€¦»

Tu-tu-tu-tudu-du-tu

I kissed you,I hugged you,  
Just because that I wanted to

I cried for you,I laughed for you  
Just because that you're beautiful

All these sadness I'm through is because of you  
What the hell did you do to me  
And my relations and my winding education  
Now your my preoccupation  
I had enough of this

For me you were the very one  
For you I was one of all

Goodbye's for you, but that's just bad bad bye's for me

(â€» Repeat)

Let's talk about love, about dream, about  
Everything that's something to do  
Has got to be something to do with are world  
Everything that's something to do with are world

Anything you said was everything to me  
Nothing that you said was nothing to me  
Cuz I love you ãf™ã, ããf™ãf¼  
And I really really want you ãf™ã, ããf™

(â€» Repeat)

Du-wala-du-wala what should I do to you

I should sing this song  
Forever and ever

Not because that you didn't want me
