The solution to peace isn't clear the terrorist
Thret is a modern fear there are no jobs for the young
They turn to crime turn to drugs battle ships crowd the
sea

16 year old in the army our jails are filled
To the max discrimination against the blacks

Russian and american war machine will destroy
mankind's

Dream they shoot their missiles in the air they do not
Care they do not care guerrilla armies rule the street
no more Christmas or trick or treat is this what
The future will bring I pray for peace more than
anything

The solution to peace isn't clear the terrorist threat
Is a modern fear there is no future for the youth
There is no hope for the young death destruction
Bombs galore the rich are laughing at the poor
Our jails are filled to the max
Discrimination agains the blacks
