Yeah yeah, she's the one  
Yeah yeah, she's the one  
When I see her on the street  
You know she makes my life complete  
And you know I told you so  
She's the one, she's the one

Yeah yeah, she's my girl  
Yeah yeah, she's my girl  
When I see her on the street  
You know she makes my life complete  
And you know I told you so  
She's the one, she's the one, she's the one

Know I'll never find a girl like you  
But in my heart I'll always love you

Yeah yeah, she's the one  
Yeah yeah, she's the one  
When I see her on the street  
You know she makes my life complete  
And you know I told you so  
She's the one, she's the one, she's the one

Know I'll never find a girl like you  
But in my heart I'll always love you

Yeah yeah, she's my girl  
The best girl in the whole wide world  
When I see her on the street  
You know she makes my life complete  
And you know I told you so  
She's the one, she's the one, she's the one

She's the one, she's the one, she's the one  
She's the one, she's the one, she's the one  
She's the one, she's the one, she's the one
