Cos I feel safe when your near me
And I can hold you completely
Though you constantly hurt me

And we fight
And we cry
And we tell the same lies about Love
And we cling to each other shoulder to shoulder
against the world

So I'm gonna drag you down
whilst you drag me down
And I'm gonna shout at you
whilst you shout at me until we realise that real love is
free free

And I get a kick when you worry
That you are just no good for me
And I feel weak watching you plead

And we fight
And we cry
And we tell the same lies about Love
And we cling to each other shoulder to shoulder
against this world

So I'm gonna drag you down
Whilst you drag me down
And I'm gonna shout at you
Whilst you shout at me until we realise that real love is
free free

Don't be my downfall
Don't be my downfall
Don't be my downfall
Don't be my downfall

Lets leave it alone
We can work it
Find our way
Forget the past
Cos I love you and you love me

So lets crawl free

So I'm not gonna pull you down
whilst you pull me down
And I'm not gonna shout at you
Whilst you shout at me because I've realised that real
love is free
