[Rakaa Iriscience]

no questions

I pledge resistance to the grass

that hides the snakes of America

so they watch it, now I walk with caution

more careful put more thought to options

Is the opposite of progress Congress?

From the school to the street we're beyond stress

but I fight for peace, that's what the problem is

war is big biz, ask an economist

speak in volumes callin' anti-war and anti-American

synonymous

Back in the day I would've gotten black listed just for

speakin' up

Hoover probably would've screamed Communist!

I want black and brown unity

but cats get out to bring the jail to the community

Fightin's nothin' new to me

I even corrected what the public school system tried to
do to me

Here's a spark encoded in rhyme and love for
everyone of the devoted in line:

We call it art, some call it a crime

it's the rap Michael Moore, like Bowling for Columbine
on drums, Fahrenheit, 9-1-1

Al Queda hit the Apple and the world was stunned

the villain trained by the hero for the killing

now you twist \$20 bills to see buildings

Under heavy surveillance

they might call you a traitor if you want something
greater

Don't get me wrong, America's a great place to live
just listen to the knowledge I give

if more than half the budget goes to military spending

less than half goes to whatever it's defending

One nation, many gods, individuals with liberties

and justice for all who are miserable
