All my life I've heard it said,  
"You've got to make your own way  
If you want to get ahead.  
There's a price you will pay."  
Listened good and I tried real hard  
But it didn't get me far.  
I found out He's holding me in the palm of His hand.  
I've got no doubt He's calling me to be a God made  
man.

(Chorus)  
Gonna trust in Him completely,  
Gonna go wherever He leads me,  
Giving everything to be a God made man.  
Gonna love Him with my whole heart,  
Follow Him no matter how far,  
Won't be content till I am a God made man

Every day I remind myself  
I'm just a work in progress,  
How much I need His help  
To take every step I take.  
Every time that I lose my way  
My heart goes back to that day.  
I found out He's holding me in the palm of His hand.  
I've got no doubt He's calling me to be a God made  
man.

Repeat Chorus
