"Trade Money"

Visit "[Trade Money](#)" on MotoLyrics.com

(Jamaican man talking & Babu mixing)
"Everybody got dreams of makin cash money"

(Chorus-Iriscience)
Trade money
Different color and shape money (money)
Money that looks funny but never no fake money
Make money, money, but please don't waste money
We don't love money but we don't hate money

(Evidence)
Yo, if you live day to day then you proably live life
More than a cat who got a Benz, bank roll and a wife
'Cause yo, I seen a lot of folks whose so-called success
equals depress
And look up to broke peeps who hold mics now
Play the role, reverse and understand
Your friend with no dough might be closer to earth
Take the pressure off the weight and see how it
equates
If you hold yourself back to make papes, get it straight

(Iriscience)
You can use cash for tools, to get parks and pools
Community centers, rec rooms and schools
Book money, off the books and food money
Rent money, electronic money and crew money
First thing, flippin over dollars, searching
For the eye in the chief corner stone in thirteen
Stay beyond hungry and thirsty, ("dilated")
We're damn near starvin and we're dehydrated

(Chorus) 2x

(Iriscience)
No credit, everybody has to pay
Dope music, spittin everything from hash to yay
Watch the traffic or you're gonna bring crash this way
Then have 'em swingin at my door like Cassius Clay (no
matter)
The game don't exist without roles and rules

But comma manifest as the golden rule
Rolled on wheels in the eighties, they would jack them
fools
Flashin trucks and jewels, but not tuckin they truck
jewels

(Evidence)

Yo, since last year I've accumulated more money
More big breaks, been dressy a little less bummy
But more headaches and more pain in my stomach
On top of that I got a lot of people actin funny
But dummies get exposed when your weapon's are
chose
Power to spit out your mouth cold could leave a man
fold
Yo, been to certain places where the term "green"
don't mean shit
'Cause money's blue and that's what it takes to pay rent

(Chorus) 2x

(Jamaican man talking & Babu mixing)

"Everybody got dreams of making cash money"

"Everybody got dreams of making cash money"

(Evidence)

Yo, trained to be patient but still wait eagerly
Approach easily, backed by walkin Evil Dee
Sell medicine legally with my partners to our clients
(Share the wealth with Babu and Iriscience)

(Iriscience)

Navy B, Henny B, Beat Junkies sound
Expansion team, independent dollars, word a mouth
There's cats with twenty/twenty that'll never see money
To get the cash crop you have to plant seed money
Twelve inches spark, now accountants crunch digits
The same cat that battled them fools for lunch tickets
Everyday the rates change and currency's strange
???, international money exchange

(Chorus) 4x

Trade money, trade money, trade money
Trade money, trade money, trade money
Money exchange
