{*DJ Revolution scratches "Dilated Peoples"*

[Chorus: Dilated Peoples]

I work the angles sharp and precise

Dilated Peoples so you better build twice

{*"Act like ya know, not now but right now"*

{*"Dilated Peoples.."*

"The name is Iriscience"

[Iriscience]

I go through rivers (what?) so I don't leave a scent

I travel both directions but leave one set of prints

It's just a little trick, of the indigenous

Developing inner visions of what religion is

I caught the understanding and the underhanded

I plan to build my ship and man it to another planet

Under heavy surveillance, many different agents

Some are camouflage, others are very blatant

I study weapon systems and vocal fighting forms

I'm many moves ahead, the thoughts are highly
formed

Like time times time times time is time squared

Went there, sayin "Rakaa you don't rhyme fair"

But I never dummy lyrics and they kick it to my people

It's about communication not a rappers ego

Messages I sneak in they seem to seep in

Mixed with alcohol and weed on the weekend

Shared among friends like various sins

One day it clicks it's no longer dim

Time release capsules humble the headstrong

Your thoughts of takin me head on are dead wrong

[Chorus]

[Evidence]

{*"Evidence"*} It's the master of Aikido

I let go, karate confrontations

Evidence scientist in innovation

I locks on when I travels around planets

Smooth but got a rough edge like Wulitzer pianists

Display mucho attack, receive payments for the
cadence
A in this, you get fit fowl with fragrance
Free agents on the dotted line more hard to sign
Not easily impressed with gold mines and whole nines
I'm somewhere in-between never rushed and in a hurry
And when I swing my bat I don't think I'll miss like
baseball
Fury the jury's hung, from verdict and got no chance
Dilated comes first the rest are second like Stu Lance
Oh yes it get better everyday
The A-1, is my mind on vintage display?
Unattended in this case
(The Ace two steps ahead)
Everyday is Mayday and best friends are Feds
But I know this that's why they closest
In a crisis situation you negotiate first
I'm perfectly focused
Strategic and in a zone
It was radar detected but my speed was unknown
Anonymity, that's my key to survival
Ev is not for Evidence it's for all the dense on trial
Just remember in this game it take two to tango
Don't go to them let them come to you
And work the angles

[Chorus]
