I always thought  
That you were the kind of girl for me  
But now I've realized you were only an illusion  
The perfect picture of  
What I always wanted  
And now this picture is hidden by your personality

You are not important now that I know who you are

I'm turning grey  
Nothing more  
With my feelings You are gone  
I've found my way now I'm ok  
But hope one day you'll understand  
I really wanted to give you my world but you are gone

And don't forget  
I thought I was the worst between you and me  
And that you were perfect, you were all my dreams  
I've never been so wrong at all  
And now it's time to go on  
Well, so long my dear, see you next life....

Some nights your lovely face comes in my head  
And I think of what you could have been to me  
But now there's no reason to think of you  
I almost curse the day we met...
