Sensitive heart you doomed from the start
Ment to play the punitive part
Inquisitive mind your destined to fend
Tempted fade and I'll intervene

You in there, a pittied pair
Denoted by a scene unfair
Will you make my children bare
The consequences everywhere

Is it so hard to forgive the way
that we have made to live, how much
is required to set this right
have you confused your power with mine

Oh oh oh

You in there, a pittied pair
Denoted by a scene unfair
Will you make my children bare
The consequences everywhere

Inimate you seem to be
A picture of fragility
What is it you think of me
Is it a woman that you see

Is it so hard to forgive the way
that we have made to live, how much
is required to set this right
have you confused your power with mine

Is it so hard to forgive the way
that we have made to live, how much
is required to set this right
have you confused your power with mine

Oh oh ooo oh oh ooo oh oh..
