It started in your heart
It started in my dreams
You took up all your time
You took up everything
Stars in the mirror
Always look so big
And every night I wanna do it
You started in your top
You never went that way
You took up all your time
You took up everyday
Stars in the mirror
Always look so big
And every night I wanna do it
Upside down, you turn me on
It's like fire to the flame
It's like fire to the flame
And we'll dance the night away
And we'll dance the night away
And we'll dance the night away
And we'll dance the night away
And everything, and anything
You just don't have 'em, yeah
It started in your heart
It started in your dreams
You took up all your time
You took up everything
Stars in the mirror
Always look so big
And every night I wanna do it
You started in your top
You never went that way
You took up all your time
You took up everyday
Stars in the mirror
Always look so big
And every night I wanna do it
Upside down, you turn me on
It's like fire to the flame
It's like fire to the flame
And we'll dance the night away
And we'll dance the night away

And we'll dance the night away
And we'll dance the night away
And everything, and anything
You just don't have 'em yeah
