What have we here?
Loox like another change of things
Empty hole...there once was certainty, oh yeah
So its time to be leaving cause gravity has no feelings

I'm coming down to earth now
I'm coming back down
I'm coming down to earth now
I had to let go

Thousands of years
I spent upon some planet drifting low
Unaware or maybe just a moment
I don't know
but who cares what emotions say
I'm here tomorrow yeah but not today

I'm coming down to earth now
I'm coming back down
I'm coming down to earth now
I had to let go

All I wanted was a place to stand
On solid ground instead of quick sand
Let it go

Well maybe, maybe this is heaven
Cause it's not any place at all
It's just traveling

I'm coming down to earth now
I'm coming back down
I'm coming down to earth now
I had to let go
I had to let go
so take me
