Walking through the dessert with death at my side
I got 200 miles to go
I've got a load on my shoulder, a limp in my step
No water with a dry throat
Praying for rain for days, under the sun
Yet I feel it, yeah somehow I know
I'll make it out okay, I'll see another day
Yeah somehow I know, please don't I know?

Heaven, hear me now
You found me on the ground
And you want to stay this time
Some things stay the same
While some things got to change
Heaven, send me a sign

Yeah maybe this ain't so bad, I've walked through
worse before
Since the day I was had
Now I can't stop time, but time can't stop me
Do you see this desert set me back?
It's a shame that the devil sits under my feet
Waiting, yeah, planning attack
But he's gone for good, he's not coming back
I'm here to stay watch closely, you won't see me crack

Heaven, hear me now
You found me on the ground
And you want to stay this time
Some things stay the same
While some things got to change
Heaven, send me a sign

No I can't part the sea, but hey I've seen it done
And it wasn't in my dreams
Just open up your eyes, and I think you can see
Something you never had before
Do you believe me?

Heaven, hear me now
You found me on the ground

And you want to stay this time
Some things stay the same
While some things got to change
Heaven, send me a sign

Heaven, hear me now
You found me on the ground
And you want to stay this time
Some things stay the same
While some things got to change
Heaven, send me a sign

Hey, Hey
Heaven send me a sign
Hey, Hey
Heaven, send me a sign

Heaven, hear me now
You found me on the ground
And you want to stay this time
Some things stay the same
While some things got to change
Heaven, send me a sign
