she told me she's afraid of heights /
i told her baby girl you afraid of life /
she asked me if i'm scared of the sky? /
but how could i be when i am that fly /
and yes i'm that guy /
the one next door with the fly *ss rides /
and yo i can see it in your eyes /
you don't want to hear me say goodbye, i'll take you /

how high can we go? /
how high can we go? /

got her head in the clouds and her feet on the ground /
she the type of girl that stick out in the crowd /
i'm sorry, i got a problem thinking out loud /
but i got to let you know how i'm feeling right now /
i want to take you there, up high /
to the place where the planes pass by /
and shorty if you take me higher /
considered yourself hired /
and we gone do it until you get fired /
but your so hot, yeah you got that fire /
got me thinking the early retirement /
with you 'cause it's you i desire /
you got me feeling like heaven on a sunday /
or a fat kid with a chocolate sundae /
from down here the top is a long way /
but we gone make it baby girl one day /

we may never know /
higher than we dare to go /
how high can we go? /
we may never know /
higher than we dare to go /
how high can we go? /
we may never know /

higher than we dare to go /
how high can we go? /

we may never know /
higher than we dare to go /

how high can we go? /
we may never know /

i want to take you higher than pluto /
and get caught in the act like you know /
michael phelps or anybody else /
i want to take you high up to the top shelf /
and it's hard to explain ones self /
when you got me feeling like i ain't never felt /
i'm trying to see high elevation /
so don't have me waiting, take me /
higher and higher /
you told me the sky was the limit /
but i know we can get even higher /
got one life, better go 'head and live it /
you got me feeling like heaven on a sunday /
or a fat kid with a chocolate sundae /
from down here the top is a long way /
but we gone make it baby girl one day /

we may never know /
higher than we dare to go /
how high can we go? /
we may never know /
higher than we dare to go /
how high can we go? /
we may never know /

higher than we dare to go /
how high can we go? /
we may never know /
higher than we dare to go /
how high can we go? /
we may never know /
