i wake up to a brand new day / i'm just happy that i'm  
breathing /  
i know i said it before / but i'm living this life like i'm  
dreaming /  
i gotta get it in 'til the sunrise / and never gone quit 'til  
the sun dies /  
and when i need a little motivation / all i gotta do is look  
in my sons eyes /  
my attitude is so exclusive / ever since i survived that  
night /  
when you get another chance to live / i'm saying that'll  
change your life /  
and this life don't happen twice / we just trying to get  
up to new heights /  
and make it through the night / another day in the life /

from the morning to the night / we've got moves to  
make /  
have to hustle all day / do whatever it takes /  
so alive, we stay high watching time pass slow /  
it's just another day, just another day /

from the morning to the night / we've got moves to  
make /  
have to hustle all day / do whatever it takes /  
so alive, we stay high watching time pass slow /  
it's just another day, just another day in the life /

i put in work 'til the twilight / i give you my life behind  
these micas /  
we trying to do numbers like Twilight / Team Sherlock,  
save the limelight /  
and this right here is for my fam / i'm saying i love my  
folks /  
when you down and out, keep your head up high and  
don't give up hope /  
for the strippers in the club getting naked / doing what  
you got to bring home the bacon /  
i know it's hard nowadays just to make it /

the pride inside, don't ever let 'em take it /  
and this life don't happen twice /

we just trying to make it up to new heights /  
and make it through the night /  
another day in the life /

from the morning to the night / we've got moves to  
make /  
have to hustle all day / do whatever it takes /  
so alive, we stay high watching time pass slow /  
it's just another day, just another day /

from the morning to the night / we've got moves to  
make /  
have to hustle all day / do whatever it takes /  
so alive, we stay high watching time pass slow /  
it's just another day, just another day in the life /

it's another day /  
it's another day /  
it's another day /  
it's another day /  
it's another day in the life /
