a featured presentation / this dedication
hey sis, look how far we made it /
before the ride is over, yo i had to state it
my sister so appreciated
remember growing up like the family on Good Times
never had much but we made 'em some good times
when times was rough you right by my side
on them rainy days, Little Miss Sunshine
hey sis, all the things we been through
now we laugh about the trouble that we got into
you broke my Atari , i threw away ya Barbies
never think i apologized for that so i'm sorry
for all the parties and the celebrations
seem like i been waiting so long to say this
for your love and your time and patience
if you feel the same way go ahead and say it

my sister, my sister
i'm a sing out loud for my sister
'cause i'm proud of my sister
if your best friends like a sister
my sister, my sister
when you feel like the world is against ya
i'll be there for my sister
keep your head to the sky my sister

my sister got a sister like Venus and Serena
never let the competition get between 'em
they shared the same clothes , shared the same room
in the mirror use to dance to the same tunes
my sister for life, i told you one day you'd make a
beautiful wife
you told the professor to save the lecture
but i'm on your side just trying to protect ya
your my sister, where amazing happenin'
something like hanging out with the kardashians
every holiday guaranteed to come back again
now hurry grab a seat and open these packages
my sister, since your miles away way
and we don't talk on the day to day day
for your love and your time and patience
if you feel the same way go ahead and say it

my sister, my sister

i'm a sing out loud for my sister
'cause i'm proud of my sister
if your best friends like a sister
my sister, my sister
when you feel like the world is against ya
i'll be there for my sister
keep your head to the sky my sister

my sister, sister with so much soul
told me to follow my goals with a heart full of gold
and the greatest stories thats ever told
when we sit and reminisce
to me them stories never get old
hey sister, hey hey sister
and when your not here i'm guaranteed to miss ya
for your love and your time and patience
you know the rest so go ahead and say it

my sister, my sister
i'm a sing out loud for my sister
'cause i'm proud of my sister
if your best friends like a sister
my sister, my sister
when you feel like the world is against ya
i'll be there for my sister
keep your head to the sky my sister

my sister, my sister
i'm a sing out loud for my sister
'cause i'm proud of my sister
if your best friends like a sister
my sister, my sister
when you feel like the world is against ya
i'll be there for my sister
keep your head to the sky my sister

your my inspiration
and my motivation
any situation
