alright, class in session /  
and i really need to pass this test man /  
no question /  
until i got caught with a cheat sheet trying to answer  
the questions /  
that detention hurt /  
how the teacher gonna give the homeless kid  
homework? /  
ok, first things first /  
if she cute with a skirt, guaranteed i'm a flirt /  
now 600 on the SAT means you ain't getting into USC /  
you know it wasn't meant to be /  
if you go to school and you fail P.E. /  
i know my dad wanted me to be a doctor /  
man, im trying to roll with Dr. Dre /  
i know my mom wanted me to be a lawyer /  
ma, im trying to tour with Kanye /  
one day /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /

congratulations students, you've made it /  
welcome to the real world /

something like Ferris Buehler, just a little bit cooler /  
still got me a tutor /  
yeah a fly one, after school i school her /  
i'm just trying to graduate to the real world /  
my homie told me he just trying to find a real girl /

you know the high school drama /

good enough to write you a high school drama /  
and it's our senior year /  
for most of us, the last time here /  
hey ma, do i make myself clear /  
this the last time i can hold you near /  
i can't believe you going to leave your man /  
and all of this got to come to an end /  
i hope i see you in the city again /  
maybe one day as senior citizen /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /

and this is for the future rock stars /  
rolling in the fast cars /  
and the cheerleaders /  
still looking like divas /  
all the homies in the chess club /  
make your next move the best one /  
this is for the seniors /  
Lamar, we still see you /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /

it's our last time hear all the times we share /  
i know the end is near on our senior year /  
don't shed one tear on the times we share /  
it could end right here, senior year /
