Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,

Go apes and a pussy, straight bananas
And stay up in a pussy, all night lie pajamas
Night fall, top down, I'm wearing paul frank nigga and
I'm iced out
Walk up in the playboy mansion
Sorry... to the pussy...
Bloody trails, bloody screams... bloody scene
Lights on, lights off, I don't really care
Yeah, yeah, I'm turned to the max
Pretty ass hoes getting big from the back

Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere, X 2

I knew she was a freak, I met her in Toronto
First day I met, I was fucking in the condo
Dirty little bitch and she know how to take dick
Blow a nigga's balls like she blowing out the candles
When it comes to sucking dick, Shawty got handles
Beating up that pussy was the motherfucking man do
Cash flow, in... I need an ass so big, I need a lap dance
I need an ass so big, that it could tap dance

Pussy popping and popping on the hands stance
Drop that, real low, put it you baby like a dildo

Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere,
Bad bitches, erywhere, wrywhere, X 2

Suck a nigga, fuck a nigga, take a nigga pipe
Beat the pussy, out the pussy, do it all night
Hoes getting tripped down, smashed on sight

Ride this dick like a new motorbike
Pull out my dick and the whole said yikes
Pulled out my dick I said bitch don't bite
One big room, full of bad bitches
A nigga like me work with 100 inches
A nigga like me I'm fucking all of you bitches
Chain on ice, wrist on cooler
Got a nigga now, mac the ruler
Take the rubber off, bust all in your face
Wipe my nuts off bitch, no gun case
I don't let these bitches out... one on one
It ain't no fucking fun if homey can have none
I leave the bedroom door open after I'm done

Bat bitches, erywhere, wrywhere,
Bat bitches, erywhere, wrywhere,
Bat bitches, erywhere, wrywhere,
Bat bitches, erywhere, wrywhere, X 2
