"Come With Me"

Visit "[Come With Me](#)" on MotoLyrics.com

Come with me, travel with me
Come with me to see the world,
To see a bit more

Life might seem much easier
Just staying still beneath the clouds
But think then wouldn't any paths be visible
If our people hadn't been moving all the time
Make room for the world
Make room, my friend
Make room for life
So you won't be wronged when time's run out

Come with me, travel with me
Come with me to see the world,
To see a bit more
Come with me, travel with me
Come with me now
And we'll go far, far away to gaze

Even if it might feel difficult to move
It will be great when you finally take the challenge on
New winds they take you further
That's good medicine for everyone
Make room for the world
Make room, my friend
Make room for life
So you won't be wronged when time's run out
