Whisper a word and I'll change
I'll change the world for you
Only you

Sunshine in your hair
I've been waiting all these years for you
Only you

I can only sing for you
Oh, it's always you
Only you

Shining sun and the glowing moon
Rivers flow, I'll make flowers bloom for you
Only you

Stars and satellites
Planes and butterflies for you
Only you

I can only sing for you
Oh, it's always you
Only you

Here I stand and all I can breathe is you
Only you

I can only sing for you
O-A-O-A-O
