Taboo: "It takes one person to stand up, in what he believes in. And I believe there's been and injustice in the state of Arizona. I oppose bill 1070."

(Celebrity Opposers)

It takes one to fight for y'all
One man to stand up tall
One man to speak out- loud
Just one to stand up proud.
One nation one people; We all considered equal.
My gente unidos, ¡Jamás seremos vencidos!

We marchin', we marchin' ; Our voices must be heard
We struggle, together; And justice must be served.
We ain't ya enemy or have these colored lines
We give America our blood, our sweat, and precious time.

One heart, one beat (Takes one, just one, Takes one, just one)
One voice is all we need (Takes one, just one, Takes one, just one)
One heart, one beat (Takes one, just one, Takes one, just one)
One love is all we need (Takes one, just one, Takes one, just one)

One voice to change the law
Injustice break the walls
Racism is a flaw
We need to open doors
Takes one to speak it
The nations won't believe it

One nation one people, we're all considered equal.

We marchin', we marchin' ; Our voices must be heard
We struggle, together; And justice must be served.
We ain't ya enemy or have these colored lines
We give America our blood, our sweat, and precious time.
