

Yuck "Weekend"

Visit "[Weekend](#)" on MotoLyrics.com

I signed up today to take you for a ride
I love the weekend, it makes my mind survive
But I could see some distance
I could see some distance in your eyes

I signed up today, threw my shame aside
In my bones a weakness that breaks away the pride
The two of us have time
The two of us have time to get it right

It's not your side

I signed up today to take you for a ride
I love the weekend, it keeps the pain inside
And I could see some distance
I could see some distance in your eyes

It's not your side
