Look out your window, IæŠ£I drive you home
Clasp your knees up to your chin
Pretend to stare at anything

Rev the engine, stomp the brakes
Turn the radio off as my heart breaks
Rev the engine, kill the lights
Another quiet post fight night

Look out your window, and IæŠ£I drive you crazy
Clasp your knees up to your chin
Pretend to stare at anything

Rev the engine, stomp the brakes
Turn the radio off as my heart breaks
Rev the engine, kill the lights
Another quiet post fight Friday night

And like east to west
Our eyes never meet
And the tension cuts like a knife
Like the words we said
I want to take them back

I wish IæŠŽ bit my lip clean off my smirking face
ThereæŠ` 5 gears between us but weæŠ®e miles apart
tonight
