You are on my mind
All day long
In name of this song
You are only for me and i am for you
Play this game and let me take you
Let me taste you
Let me taste taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
You are on my mind
All day long
In name of this song
You are only for me and i am for you
Play this game and let me take you
Let me taste you
Let me taste taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
Let me taste you taste you taste you
