I don't go to hoes, these bitches come to me
I double up on them nigga, 3's company
Now watch these hoes fly, soon as my dogs drop
In the air seat, motherfuck I'm fin to close ya
Birdie, birdie, birdie, it's the doggy dog
Your big homie, the one and only, so ,
I'm making , when I close my eyes to go to sleep
I'm counting billions while you rap niggas counting
sheep
It's a crazy thing to wake up play this crazy game
Ice cream sugar daddies and candy canes
My lil homies got that work is if you need it bra
Best believe he's a killer and he's heated up
Right back on the block, tryna dodge the cops,
I'm in the parking lot, macking as some ,
I got a plane with the grill, but my favorite is my blue
blue snoop deville
I got a house on the hill, representing to the wheel
And I just signed this brand new,deal, for real
I got what the fuck I want and that's in every color low
From the bitches to the cars, to the dope that I smoke

Blueberry rumble, rumble purple trees
White willow, white , kush, cash, green
,and fly, so he just coming on
On this elevator ride,
Push the button to the penthouse
And he blew my mind inside
We goin farther than the moon and the stars
We fly as fuck, fly as fuck, at night

Me and the homie sitting corners
Do whatever we wanna
Tattered from head to shoulder, I'm from killa
California
Where them boys in blues patrolling
And the bad ones they be chosen
So them hating niggas mugging
They don't want it, I'm on a level
With stunting low pro in the callie
My southern niggas be dunking

Bucket 6 beats banging in your street
In the 6 3 some,easy does it on repeat
Shopping up with a freak, in them sheets
Bigger than a pumpkin
Going hard so they nodes when I'm strolling
They be on me like flies
And fin to press,as you rolling with a bindess
Minor fly, type of nigga like myself
G on the belt, adidas only stripes on the side, fly
He's so damn fly
See dollar signs I'm fin to get them
Chilling down south with my niggas, we in the building

We heavy on the side today
We try to run that back again
And now I'm , cause I love the way it feels
When we,
We goin farther than the moon and the stars
We fly as fuck, fly as fuck, at night

Let's go have a good time, leave your worries behind
I know, holding down, you down so good
We fly, fly, fly, fly, fly

On this elevator ride,
Push the button to the penthouse
And he blew my mind inside
We goin farther than the moon and the stars
We fly as fuck, fly as fuck, at night.
