cuz you were just too busy being fabulous  
too busy to think about us  
lookin for love you will never find  
never know what you left behind  
cuz you were just too busy being fabulous ah-huh

you tell a joke and everybodys laughin  
thats somethin you know how to do  
you've always been the life of the party  
now my baby, the joke is on you

cuz you were just too busy being fabulous  
too busy to think about us

runnin after somethin that never comes  
what in the world are you runnin from  
and you were just too busy being fabulous  
too busy to think about us  
drink the wine from the winners cup  
to notice your children were growin up  
you were just too busy being fabulous  
too busy too busy too busy
