Oh, you can't hold a gun to my head  
No, you can't hold a gun to my head  
Because baby, I would just refuse  
Baby, I would just refuse

All in vain, all in vain  
Well you don't know how I feel and I can't explain

Oh, you can't hold a gun to my head  
No, you can't hold a gun to my head  
Because baby, I would just refuse  
Baby, I would just refuse

All in vain, all in vain  
When I follow anything that takes my life  
All in vain, all in vain  
When I self-destruct for fun and I don't know why

You might as well admit it, despite how you might see it  
I'm never gonna waste my time with you  
I don't know how you're feeling, you know you kinda  
blew it  
I'm never gonna waste my time with you

Oh, you can't hold a gun to my head  
No, you can't hold a gun to my head  
Because baby, I would just refuse  
Baby, I would just refuse

All in vain, all in vain  
When I ate an appetite that I can't refuse  
All in vain, all in vain  
Having been there, I would never go again
