

## **The Young Cons "Power Of The Individual"**

Visit "[Power Of The Individual](#)" on [MotoLyrics.com](http://MotoLyrics.com)

(Stiltz)

I believe people are created equal  
They're capable, powerful, and very intellectual  
The state of this nation is far past critical  
The solution, simple, it's called the individual  
Big government tells people to play the victims  
That they don't have the skills to cure their only  
symptoms  
My goal ain't to hate on the liberal regime  
But to resurrect conservatives in the GOP  
People should donate their money to charity  
When it's wasted by the government, it's called  
thievery  
For clarity, all I want for this country is prosperity  
I'm rappin about the true cure for poverty  
All people need one time is a chance to see  
Like our brave soldiers they can be all they can be  
I love this country and all Americans  
It's time to unite and time to take a stand  
We are tellin the government Yes we can  
We don't think we're weak, and we have a game plan  
The government needs to stop the moochin  
Their one and only role, uphold the constitution  
Taxing people who create jobs is stupid  
Spreading the love like my name is cupid  
Sit back and listen to the young con movement

(Serious C)

The government has new illegimate powers  
That poisons the person, creates dependent cowards  
We are not a country of entitlements and handouts  
We are not a country of safety nets and bailouts  
(inspired by Glen Beck™'s Common Sense)  
Removing failure, removes achievement  
Ignores our founding constitutional agreement  
We should reward labor, voluntarily help our neighbor  
Endowed by our Creator, with rights we need to savor  
The American citizen knows how to be great  
Does not need to be fed, housed, clothed by the state  
Uplift responsibility and the courage to portray  
It's immoral to create debt that my generation will have  
to pay

Don't penalize success, don't demonize the industrious  
(inspired by Mark Levin)  
Don't preach a dark future, tell us it's the sunniest  
We are the Individual, we lean with it, rock with it  
stimulus weak sauce, can't get a job with it

(Chorus 2x)

Robbing our ability and right is disastrous  
Up against the dubious, consider us your catalyst  
If Conservatives are dead, we're about to pull a  
Lazarus  
We're motivated, educated, dedicated capitalists

(Stiltz)

Time to clear some misconceptions  
You don't have to be a Christian to feel my message  
It helps me make my personal choices  
It helps me speak up for unheard voices  
We just want to help kids who lost their self  
When you got a problem, turn to a book shelf  
I'm still gonna give my political views  
Not the kind of stuff that you hear on the news  
I recently had a "Rendezvous with Destiny" (Reagan)  
Reagan was on the tv screen next to me  
He said "it's a simple answer after all" (Reagan)  
Saved the day when we were about to fall  
He said to stand by your true convictions  
Follow through with your original intentions  
He did not forget to mention  
The constitution was a great invention  
He said what's right and condemned what isn't  
There is no moral rel-a-ti-vism

(Serious C)

We are not drones, we are not statist (inspired by  
Mark Levin)  
You do not own, my plans and my interests  
We are "not statistics, we are not faceless"  
(Liberty and Tyranny)  
Conserve the declaration or we'll be left baseless  
Individual capacity for self-authority  
Fighting private sector messin the control obsession  
The War on Terror is now the War on Success (inspired  
by Dick Morris)  
Want to test our best... We're more powerful than you  
guessed  
"I got a three-letter word: j-o-b-s" (Joe Biden)  
We only regress, when government is at its largest  
Yes we're Ivy, on the brink of a movement  
The American dream is the ink to my blueprint  
Ability, god-given right to be a free-man

We can spend our money better than Uncle Sam can  
Don't give us a handout, teach us how to fish  
Don't say we're no good, we won't sit and wish  
Self-determinism proves us, the ultimate truest  
Industries we won't cash-in, healthcare we won't ration  
Touching everybody from carpenters to Annapolis  
Gathering everybody from Muslims to the Catholics  
Independent, self-worthy... reaching out to the atheist,  
Write to Washington and tell them stop promoting  
laziness

(Chorus 2x)

Robbing our ability and right is disastrous  
Up against the dubious, consider us your catalyst  
If Conservatives are dead, we're about to pull a  
Lazarus  
We're motivated, educated, dedicated capitalists

(Stiltz)

If I fall short I'll say it's my fault  
I'm still livin' life saying "Who is John Galt?" (Ayn Rand)  
like salt, the preservative conservative  
Creating a nation where success is addictive  
"Power to the people" (Laura Ingraham) and not  
administrative  
Liberty and Government equals contradictory  
"You avoid pain, I pursue happiness." (Ayn Rand)  
It's not too late to stop "the thousand years of  
darkness" (Reagan).  
My name is Stiltz, The optimist, ambitionist  
anti-marxist and old school capitalist

(Serious C)

Our well-meaning friends say apologize  
They dress up control in an equality disguise  
It's unwise to stand-by and have our freedoms  
compromised  
Until the end of my life, I'm in search for what's right  
transcend through the mic, let discussion ignite  
Reach the people, defeat this evil  
Ya'll heard the anthem, now receive the sequel  
I believe we have the power to improve society  
I believe our voice can remove this tyranny  
There comes a point, where you have to make a choice  
Say what you believe in or lose your voice  
You either step up or you get stepped on  
You either forget or remember what we're built on  
Approve of Iran or be a freedom icon  
Articulate what's right or agree with what's wrong  
Speak up for America or wait till she's gone  
We are the Individuals, we are the Young Cons
