Baby, let me direct you  
Be the co-star witcha boo  
Let's make a movie  
It's gonna be me and you  
I'm gonna be the camera crew  
We could do what you wanna do  
Let's make a movie

Dim the lights  
Camera, action  
Record your rewards of satis  
Let's make a movie  
Hey boy! Whatchu waitin' for?  
Go ahead baby, press record  
Each scene makes me want you more  
Let's make a movie

No acting, girl it's all pure action  
My star actress on the mattress  
My red light special, watch the light by the lens  
So when record is in that's when we begin, baby

Take one, take two, take three  
Zoomin' on what we're doin' when you're on the top of  
me  
And lean my chin in, you just might win an Emmy  
Mamma gimme, and baby we can

Baby, let me direct you  
Be the co-star witcha boo  
Let's make a movie  
It's gonna be me and you  
I'm gonna be the camera crew  
We could do what you wanna do  
Let's make a movie

Dim the lights  
Camera, action  
Record your rewards of satis  
Let's make a movie  
Hey boy! Whatchu waitin' for  
Go ahead baby, press record

Each scene makes me want you more  
Let's make a movie

You can be so corny  
'Cause girl you got me horny  
I'll be Tom Cruise, I'll keep it firm  
Superstar, super sperm

No need for a supporting cast  
Props be chocolate grass  
And your sexy ass  
Quiet on the set  
Don't say a word  
We ain't even started yet  
Better get your ticket

Take four, take five, take six  
You wanted your big break  
Baby, this is it, oh

Baby, let me direct you  
Be the co-star witcha boo  
Let's make a movie  
It's gonna be me and you  
I'm gonna be the camera crew  
We could do what you wanna do  
Let's make a movie

Dim the lights  
Camera, action  
Record your rewards of satis  
Let's make a movie  
Hey boy! Whatchu waitin' for?  
Go ahead baby, press record  
Each scene makes me want you more  
Let's make a movie

Take one, get me on the bed  
Take two, in the kitchen instead  
Take three, anyway you wanna be  
Baby, just say yes

Take four, get me on the floor  
Take five, up against the door  
Take six, real freaky shit  
I'm sure you'll like it

Take seven, backseat on my ride  
Take eight, on the grass outside  
Take nine, from behind  
Take ten, turn on the lights

Take eleven, on top of me  
Take twelve, you're tasting me  
Now that we're done, baby  
Let's watch us on TV

Baby, let me direct you  
Be the co-star witcha boo  
Let's make a movie  
It's gonna be me and you  
I'm gonna be the camera crew  
We could do what you wanna do  
Let's make a movie

Dim the lights  
Camera, action  
Record your rewards of satis  
Let's make a movie  
Hey boy! Whatchu waitin' for?  
Go ahead baby, press record  
Each scene makes me want you more  
Let's make a movie

Let me produce you babe  
Let me direct you babe  
I wanna cast you  
And let me do your booking too  
It's gonna be me and you  
I'm gonna be the camera crew
