[Intro]

This is a story  
Though the names have been changed  
The facts remain the same  
On this arista track next there gonna let u know what's  
going on listen  
You see, you always hear about a no good man  
And there's alot of no good woman out here  
And this story right here is gonna show just what im  
talking about  
Now T-Low come on

[T-Low]

I always said I would never trip on no female  
Found myself dropping down on your hair and your  
nails  
I was at the mall carrying bags for instances  
I was in love so I said oh well  
Never thought about the money that I spent on you  
So into you there was nothing that I wouldn't do  
Spend mad sheets on shopping spree's  
Pulled out my visa just to please ya  
Oh oh yeah

[Chorus]

Ain't nobody ever put you on a list (Nobody)  
Let you know with ice all on your wrist  
How i kiss your lips and put you in the mix  
Ain't nobody, Ain't nobody gonna love you  
Ain't nobody ever gonna sacrifice for you (come on)  
Put it down, the way a player do  
(I cant believe)I cant believe the shit you put me threw  
Ain't nobody, Ain't nobody gonna love

[RL]

Cant believe when you suffer the way that I did  
Even told me you were caring bout that im the kid  
I Worked 3 jobs even broke the law  
Never had second thoughts you know I never went  
wrong(No)  
9 months later a baby comes that don't even look like

me

The blood that shows its real is the sweetest baby  
I gave you everything and you cause me so much pain  
Never have a love like mine again  
Oh Oh

[Chorus]

Ain't nobody ever put u on a list (Put you on, put you on)  
Let u know with ice all on your wrist  
(Ice on all your wrist Oh Oh yeah)  
How i kiss ur lips and put you in the mix  
Ain't nobody, Ain't nobody gonna love you(like I do)  
Ain't nobody ever gonna sacrifice for you(Sacrifice)  
Put it down, the way a player do  
(I cant believe)I cant believe the shit you put me threw  
(just cant believe Oh yes)  
Ain't nobody, Ain't nobody gonna love (Break it down,  
break it down)  
Just cant believe you did this to me  
One day you'll see one day you'll see  
(Cause Ain't nobody gonna love you)

[Mysonne]

No no  
Ain't nobody gonna do what I did for you  
Im almost caught a bid for you  
I live for you, bust my gun thats some shit for you  
On the run and I hid for you thats how you do  
You probably really think you played me too  
When the only one you played was you  
I made you boo  
Before you came I played them games  
So what I gave you things I gave you Rings  
All the clothes the boots and shit  
When all that was boosted bitch I knew you shit  
Im not dumb I know your type wife in the day,  
Hoe at night always Right  
He told me you was sneaking hot its all good to me you  
died  
See you bugged, I Ain't stressed  
Im off to the next dime you got something good keep it  
next time

[Chorus]
