(feat. Coffee Brown)

Problems
Problems with your girl today
Problems
Problems with your man today

Situations
Hard to handle
Got me going out of my head
There's so much pressure
I just can't deal
You think it's all about
You and that sex appeal

But I got problems
(Slickin' around on the "L" to the hotel, all around town)
Let me know
(Who's it gonna be, him or me)
It can't be three

Problems
Problems with your girl today
Problems
Problems with your girl today

[Coffee Brown]
Here we are
The two of us together
Taking this crazy chance
To be all alone
My man don't know

That we been loving each other
Cuz if he found out
We'll have nothing
Nothing but

Problems
Problems with your man today
Problems
Problems with your man today

Problems
Problems with your man today
Problems
Problems with your man today

Said, can I get a witness
So many problems
Can I get a witness

[Coffee]

Can I get a witness
So many problems
Can I get a witness

Problems
Problems with your girl today
Problems
Problems with your man today

Problems
Problems with your girl today
Problems
Problems with your man today
