Oh, it's six o'clock in the evening
I just wanna be on top with heavy breathing
Oh baby, are ya thinking what I'm thinking
I'll take off your Victoria Secrets

Yes, I just want you to undress
Roll on top, put your hands on my chest
Baby are you ready for daddy get blessed
Stop, drop and roll with me, oh, yes

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

Baby, you've got me burnin' up, oh, yes

Stop, drop, roll with me
(Stop and drop)
Baby, you know you got me in heat
I'm on fire

Now, I know exactly what you're thinking
No, I'm not Dion, one of a psychic friend readers
But boo, I can tell by you moving closer
Puffin' the trees, and pouring more mimosa

Baby, please don't tease yourself or tease me
Daddy, can freak ya completely like E.T.
Check me out, tongue in your mouth
How 'bout some in and out right now

Stop, drop, roll with me
(Stop and drop)
Baby, you know you got me in heat
I'm on fire

You've got me burnin', burnin' up [Incomprehensible]

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

Get away, break it down right now

Every time I think about your love, I need it
You got me heated, I need some squeezing
You make me shiver with a touch, when we clutch
I'm heating up, hot for your love, yeah

What's his name, lets get to freakin'
There ain't no speakin', just heavy breathin'
Don't keep me waiting, come on lets go
Baby, stop and drop and roll

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

Baby you move over here, oh

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

I'm burnin' up, burnin' up inside for you, yeah

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

Baby you get ready for this next experience, so

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

You know, you know, you don't, yeah

Stop, drop, roll with me
Baby, you know you got me in heat
I'm on fire

Stop, drop and roll with me
Baby, you know you got me in heat
I'm on fire
