Yo yo yo yo yo
Uh huh
Yeah
C'mon, c'mon

Millennium
Millennium
Here we go yo
Here we go yo
I need you
Here we go yo
I need you
Here we go yo

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

Wanna picture you and I
Together in this paradise
It don't matter really where we go
Or where we at I'm feeling right
Cause I remember you were down with me
To be with me and care for me
You could get with me across the world
And stay this way sencerity

Cause that when it comes to you
I do anything
Anytime or the place
You know that I'll be there
Should have thought before
You came and stepped to me
Now listen close
This is what I mean

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I wish I could just let you know
That I want to keep it real
We could keep it on the downlow
Let me know whatever you feel
You know I want you for my lady
And baby you drive me wild
You drive me crazy
Just stay with me a little while

Oh I know that you've been hurt
And even played before
Don't you worry 'bout a thing
Cause I won't do you wrong
Just understand babe
You got me babe
Would you be my lady

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I like to make love to you
From the down, romantic tone
Step into my room girl
And if you didn't know
Now you know
Call it, call it what you want
Spend the rest of my life with you
Untill the day that I'm gone

Bring that flavor favorite
Gone go 'head so stop that praying
I'll be the late guy here
To take you girl from a that hate
So baby when you're praying

I'll be the big thing
Taste it
So won't you gone giddy up
You know girl I'll be the next to you baby

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you

I need your love and touch tonight
To feel your body next to mine
