I remember all the summer days drinking wine in the
Sunshine
I hope it never leaves
And I remember all the summer nights staring at you in
the moonlight
I hope you never leave 'cause baby you're so good to
me
You have all that all that I ever need.

It's easy to love you
So easy to love you
You know it's true
The best part of being with you is to know you are with
me
It's not so hard to say
It's easy to love you

I remember all those winter days frozen in the cold
tryin' to get you home
Should I be moving in?
We can be together then
Remember spending all those winter nights stayin'
inside by a warm fire
Ya you gotta know: I can never let you go
You and I have the rest of our life to say:

It's easy to love you
So easy to love you
You know it's true
The best part of being with you is to know you are with
me
It's not so hard to say

It's easy to love you

Can anybody else see it?
Oh, can anybody else see what I do?
Can anybody else feel it?
Oh, can anybody else feel the way I do?
Now I'm with you

Hard to forget all the moments

When we'd be sitting there hoping it would never end
'Cause this is meant to be
Baby, will you marry me?

It's easy to love you
So easy to love you
You know it's true
The best part of being with you is to know you are with
me
It's not so hard to say
It's easy to love you
You and me will be together
I know our love will last forever
You and me will be together
I know our love will last forever
You know it's true
The best part of being with you
You're easy to love
