Here we are  
At the end  
Say goodbye to all your friends  
Here we go watching the sun go round  
Sitting on a rooftop making time stop  
I never want to come back down never want to come  
down

Its the end of the summer  
Its the end of it all  
Those days are gone its over now were moving on  
Its the end of the summer  
But we'll see it all again  
So hold on till this moment till then  
Its the end of the summer

Here we stand  
In the middle of an empty street  
Tell me where you want to go  
I'll tell you that's where i want to be  
Say goodbye to the warm breeze  
We could be almost anywhere  
I'll miss you till the next time  
I hope i see you there  
I hope i see you back here.

Its the end of the summer

Its the end of it all  
Those days are gone its over now were moving on  
Its the end of the summer  
But we'll see it all again  
So hold on till this moment till then  
Its the end of the summer end of the summer

Rides almost over  
Its getting colder  
Take one last look  
Before it passes by before it passes you by

Its the end of the summer  
Its the end of it all

Those days are gone its over now were moving on  
Its the end of the summer  
But we'll see it all again  
So hold on till this moment till then  
Its the end of the summer  
[repeat x2]

End of the summer
