I feel so dirty, in my hotel room  
I got a king size bed, that smells like cheap perfume  
and I say to myself,  
Tyler what were you thinking

My head is heavy from all the drinks last night  
I had two too many Jagers I don't feel so right  
Am I crazy as hell or is the whole place spinning  
Oh I've just made a big mistake  
I'm caught in a nightmare, wide awake

I've got girls outside my window  
And girls outside my door  
It's too damn easy and  
I can take it anymore  
Yeah I got a house in every city  
I've got so much to lose  
I got everything any guy could want  
But all I really want is you

I'm feeling guilty for all the things I've done  
I've got a stomach full of knots and my poor heart is numb  
Can I live with myself or will I get what's coming  
I say I'm sorry and that there's nothing to feel  
But it all went to hell without you here  
And I'm hating myself so I guess I'll keep drinking  
So please just stay forget this day

Cause you can't be the one that got away

I got whiskey on the table  
And whiskey on the floor  
I've got friends who will forget me  
Banging on the tour bus door  
Yeah I got a house in every city  
I've got so much to lose  
I got everything any guy could want  
But all I really want is you  
What I was I thinking x 3  
When all I really want is you

Please, please come and save my soul tonight  
Please, please come and make everything right  
I've got girls outside my window  
And girls outside my door  
I've got girls just dying to take their clothes off  
And I got a house in every city  
I've got so much to lose  
I got everything any guy could want  
But all I really want is you  
What I was I thinking x 3  
When all I really want is you  
What I was I thinking x 3  
When all I really want is you  
Tyler what were you thinking
