I always dreamed of being practical.... Logical....
You wanted me married,
You wanted me quiet
You wanted me buried
So you got a riot

Cheap universe

Go to hell or let me go to hell alone,
Why do we have to go together?
This world is made for those who don't feel at all

Go to hell I would be another girl if I could
But clearly I can't help myself
This is a cheap universe

You wanted my taxes

You wanted my sins
You wanted my prayers
So you got me cleaned

Go to hell or let me go to hell alone,
Why do we have to go together?
This world is made for those who don't feel at all

Go to hell I would be another girl if I could
But clearly I can't help myself
This is a cheap universe

This world is made for those who don't feel at all
