"When To Let Go"

The way you said goodbye
I could see
You made an end in heaven for me
I'll never tell
I'll never show
Beneath the frost
Under the snow
It's understood
Alone with you
Wait till your eyes begin to roll
You could be close
I always know
When to let go

I've been waiting for the floor to kiss your eyes
Impressions in your thighs
To deliver bruises groans and cries
It's understood
Alone with you
Wait till you're satisfied and renewed
So keep me close
I always know
When to let go
When to let go
When to let go
When to let go

From what you said on the phone
I don't want to be alone
I don't want to be alone
[x2]

When to let go
[x6]
