So one thing led to another  
You were calling her a lover  
Her brothers her brother  
Yeah if you want me to do it, I  
guess that I'll do it, but  
I'm telling you  
One wrong move and yeah we're through

Chorus x 2  
Hey there sister wife  
Get the hell out it's my night  
You don't know the way to his heart  
Like I do

Damn man kick out the likeness  
The view is the prophet  
I don't think you got this  
Yeah holy as our father  
I'd rather not bother, I  
and I'm telling you  
One wrong move and we're through

Chorus x 2  
Hey there sister wife  
Get the hell out it's my night  
You don't know the way to his heart  
Like I do

I'm stuck with two  
I'm stuck with you  
I'm stuck with two  
I'm stuck with

Chorus x 2  
Hey there sister wife  
Get the hell out it's my night  
You don't know the way to his heart  
Like I do
