Is this lust or

Is this hatred

This selfish feeling

Under my skin
You see right through me

I wish that I could

Not just drown myself in

My reflection
Do you hear me

Am I coming in clearly

With honesty

There's no need for disbelief
This is something

More than we know

This more than

Just a pill to swallow
No simple fix

We start we end this

I try so hard

I cant forget it
Do you hear me

Am I coming in clearly

With honesty

There's no need for disbelief

I'm sorry
For the hurt that surrounds me
But it's the only way
That this could ever be
So goodbye I'll
Pack my bags and I'll go
Anywhere but here
Anywhere but here
Do you hear me
Am I coming in clearly
With honesty
There's no need for disbelief
Do you hear me
Am I coming in clearly
With honesty
There's no need for disbelief
So forget me
Live your life and we'll be
Ok, ok
The life that we lead
Is sure to kill me
I'm ok, we're ok
