Suffocating on, words that you will never hear
No point is waiting, Your time is almost up my dear
The darkness covers, my mirror and now my eyes arnt
clean

I'll break the glass and, destroy the image that is me
I'll take what mine tonight
And call it tragidy
in the darkest places
screams fill the night
its the place for murder
for all the innocent lives

its such a disaster
when your backs against the wall
in the darkest places
they make your curtain call

Im running through circles, this pain thats in my chest
your words of tresion, have taken all my breath
your stupid laughter, fills me up within
but dont you worry, shows about to begin
in the darkest places
screams fill the night
its the place for murder
for all the innocent lives

its such a disaster
when your backs against the wall
in the darkest places
they make your curtain call
(breakdown/solo)
in the darkest places
screams fill the night
its the place for murder
for all the innocent lives

its such a disaster
when your backs against the wall
in the darkest places
they make your curtain call
