Our time is too much to waste to bring secrets out  
So I'll leave you in silence after telling you

How everything is just a little messed up  
And if you think that I've recovered at all  
I hope you learned a lesson

'Cause every scandal gets its share of the camera  
And the negatives don't ever lie  
Unlike subjects of the matter  
Who have too much too little pride

And the negatives don't ever lie

That smile looks too hard to fake, so wipe it off of your  
face  
Before I get violent after telling you

How everything is just a little f'ed up  
And if you think that I cared even at all  
Look at who is undressing

You've got a lot of pride, but not enough to  
Be careful what you wish for  
You've got a lot of heart, but not enough to  
Be careful what you wish for

'Cause this time you've shown  
Your true colors  
This time I know  
Exactly what you mean to me
