I think I'll take my chance on you and me
I think I'll give this all the time that it needs be
I think I'll give you everything you're looking for
So if we just run with this
I think we could be so much more

I've been scared, but I'm feeling confident
I've been hurt, but it won't get me down
'Cause I can't wait any longer for you
Every other second, is another second
I could make my move
And if I'm lucky tonight
I'll be going home with you

I've been shy, but I think I'm prepared
To walk the stairs and you out to your car
What happens next I don't know, but I'm hoping
That every other minute, is another minute
I could be with you
And if you're willing tonight
Maybe you'd want to?

'Cause I'm holding in my desperate desires
Haunting me and all I can say is
I want you I want you for me
