

Boyish Good Looks "We Belong Here"

Visit "[We Belong Here](#)" on MotoLyrics.com

I've got a feeling like we've never felt better
As we're on this stage together
File in audience
And pull the curtains

'Cause tonight, we belong to the spotlight
Tonight, we belong here
We belong here

This is where we belong

Dim the lights, let's recite our lines
'Cause tonight's our night to shine
Hit the play button

We'll show you how to love someone

Let's go ahead, the critics say we were
Meant to play this part forever
So let's take our chances on
Living in the spotlight until it's gone
'Cause right now we have more
Than we have ever had before
And if we pass up this opportunity
It may never come back looking for us
