I'm wide awake now,
don't wanna slow down
your love is running through my veins
I don't look back now
I find a way out
you're the fire let me feed the flame

Can you feel my heart beat
Can you feel my heart skip a beat
Wanna feel your heart next to mine

Chorus
I've come to life (3x)
Everything is alright

I see the sunlight
reflect in your eyes

I am safe 'cos you're here with me,
we share the same sky,
don't need no wings to fly
you're breathing life into my soul

Can you feel my heart beat
Can you feel my heart skip a beat
Wanna feel your heart next to mine

Chorus
I've come to life (3x)
Everything is alright
