(feat. Emanny)

You're just concern with your self
You 'aint concern with us
Got t turn it from an experience to a learning one

I heard enough behind your carring on
In the way you're talking
That don't mean nothing
I said it's nothing
I mean it's nothing with out you
Yeeh that's a fantasy
Everything you have
You have from me
You haven't see our ... like it was my family
No for you finacialy
No mama , that's the reallyty
We going out
You aford this now

....

Make friend to the girl hwo ...
You cruching my atention just telling me what to do
I never knew you was jelous
guess yu were insecure
Behind this we suposse we go to grow together
But you're imature
..but i refuse ti ...
esspecialy when I knew it better
..everything I want t
But you are everythng I need it
Yeeh
So tell me about how you do the fucking nightmare

....

I got to make a move
Make a move
Yeeh yeeh
I got to make a move
Move, move, move, move
Yeeh
I got to make a move
I know you're sensitive

I know you thing I'm leaving you
And i know you thing I'm doing this just cause I don't
belive in you
But I 'aint
Cause I'm dissagree with you
I do everythinf to win
But that don't mean I chided on you
Cause you're the only one I trust untill ...
I'm doing this for us, it's seems like everybody see but
you
You calling me as ... bu you calling back
I run away ...when yu calling back
...
What money I spend with you
...I 'aint expect to
....
So you better hope that your next excuse it's best
excuse
I heard you say that you hate me
But no one likes you except me
But no one likes you except me
So girl
Cause I refuseto cedall
Especially when I know I do better
..everything I want t
But you are everythng I need it
Yeeh
So tell me about how you do the fucking nightmare
....
I got to make a move
Make a move
Yeeh yeeh
I got to make a move
Move, move, move, move
Yeeh
I got to make a move
