Cut the strings untie the things
That keep you down, bound, facing ground
Lost now found
Undo the knot that keeps you caught
Wrought in despair, change is here
So calm your fears

No more disillusion
No more pain regrets
No more running scared when things dont turn out
right
No more sad heartbreaks
No more broke heartaches
No more wondering what will happen to me in the end

Free I want to be free

I want to soar, I want to fly
High in the sky no more to cry
Or watch love go by
One step at a time is how Ill climb
Wont stop until I reach the top
